

Games on Sale

How to pull games on sale from the terminal

This will allow you to see what game corresponds with the game number on the packs. It takes the guesswork out of filling lottery.

1. Go to the terminal and select the **Reports** tab, then select **Scratchers**, and then select **Games on Sale**.
2. Once the games on sale list comes up, press **Print** and the list will print for your use.
3. First column on the list is the game number, second column is the game name, third column is the denomination of the game.
